INDEX.

THE CITY. Fred's H. Ringler leaves by whole \$22,000 estate to his family, making no public bequests. Completion of new Polytechnic High School. Pomona city officers make destructive raid on lines of Sunset Telephone Company. Another reason why Owens River proposition should be supported: seventeen millions to be spent for labor alone. Los Angeles grumbles buy thousands of Garvey ranch near Alhambra and will subdivide it. Former Supervisor Davis wins in glowing terms of Owens River water supply. Horse bites a salesman. Youthful bicyclist, thirteen held to answer. Young man sent to jail for debt. Vandeville actor offers to show court whether he can come up in contract requirements. Age of mother, sister and sister-in-law. Young man's desperate appeal to save daughter from marriage. Young man's desperate appeal to save daughter from marriage. Young man's desperate appeal to save daughter from marriage.

SOUTHERN CALIFORNIA. Pasadena saves himself by shrewd political game. Redondo launch skipper, frightfully hurt in accident, brings his craft safe to port. Alameda physician narrowly escapes ratonabe's range. Long Beach harbor, caught in tide rip, rescued by life crew after fierce struggle. Lima bean harvest begins in the Santa Monica fields. Exonido will burn bonds for which her people paid \$25,000. Youthful reservoir swimmers arrested in Monrovia.

PACIFIC SLOPE. Portland drowsy by fire; loss, \$250,000. Tonopah man kills his wife. Taxpayer to inspect San Francisco Chinese immigration bureau before return to Washington. Western Pacific to spend millions in construction at this end of line. Tom Ryan, in San Francisco, tells of Equitable troubles. Scientist visit Burbank and view his horticultural wonders. Miner strangely disappears in Alaska.

GENERAL EASTERN. Capitalist Pfister of Milwaukee says he didn't steal \$25,000. Chicago's police shaken up. Great quantities of goods rushed into Mexico before tariff went into effect. Merchants' Trust Company creditors to be fully paid. Chicago after big convention. Mrs. Taggart returns sharp answers at cross-examination. Firewheel burns, killing four men, in Pittsburgh. Yellow fever appears at Pensacola, Fla. State of steel strike in post week has been enormous. Missouri by this playing alive. Moody prepares to bring "beef barons" to trial. New York kidnapping has strange sequel. Scientist who went to Labrador are not rewarded by sight of seals. Act to prevent corruptive purchasing agents goes into effect in New York. New York metal workers strike. Police getting ready for trouble with Chicago printers. Santa Fe machinists fail to strike. Labor Day parade may be disrupted. Architects of world offered prizes for peace palace plans. City Council of Atlanta condemns Mayor Woodward for unseemly conduct at Atlanta.

WASHINGTON. Canal consulting engineers meet. Increase in public debt in July. Customs receipts increase. Bonaparte tells naval officers on watch their duties. President to return to Capital September 20.

FOREIGN. Hardman looks up facts connected with killing of his uncle by Hawaiian King. French Congo officials removed. French Congo officials to eat their dead relatives. Morocco situation much improved. China presents to the boycott. Sweden presents to Norway conditions of dissolution. Ten killed in wreck on English railway. Ecuador has new President.

SPORTING. May Sutton again defeats Miss Homans. Sweet Marie wins straight heats. Detroit wins Lipton trophy at San Diego. Place bet on Hogan. Jeff won't accept \$500 to referee Britt-Nelson fight. Joy in New York. "Jobber palaces" over victory of Kilgore at Sheepshead Bay. National Baseball Commission in session at Cincinnati. New York captures shooting trophy.

FUTURE OF CANAL.

Engineer Board in Consultation.

Problem of Sea-level or Lock to be Considered and Decided.

Letter of Chairman Shonts Remarks on the Plans Already Offered.

Chief Executive to Visit the South—Statement of Public Debt.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Sept. 1.—(Exclusive Dispatch.) Following the decision of the Isthmian Canal Commission to place with American firms the exclusion privilege for feeding the thousands of white and black laborers who will build the Panama Canal, the merchants of the little country voice their fears that their business would be injured.

Señor Don Ricardo Arias, a citizen of Panama, wrote to Judge Magoon, the governor of the canal zone, that the business men of Panama feared that this creation of a government monopoly, as it was regarded, would ruin their business.

Gov. Magoon wrote to Señor Arias that a crisis had been reached in the matter of feeding the employees of the canal, and that the action was absolutely necessary.

WASHINGTON, Sept. 1.—A notable board of distinguished engineers assembled in Washington, today, upon the request of the President, to determine the relative feasibility of a sea-level or lock canal at the Isthmus of Panama. Constituting the consulting Board of Engineers for the canal plan, these men, gathered from both America and Europe, were picked from among those of the foremost rank in their profession.

The first of the meetings at which they will grapple with the great problem began this morning in a small room at the office building of the Isthmian Canal Commission. The proceedings were opened by the reading of the letter of the President calling them together, and a letter from Chairman Shonts of the commission, which gives in detail the purpose for which the engineers are convened. In the President's order it is called the "Consulting Board of Engineers," but the letter of Chairman Shonts is addressed to the "Advisory Board of Engineers" and plans for the Panama Canal. The letter in part says:

"In accordance with the directions of the President, dated April 1, 1905, the Isthmian Canal Commission has the honor to lay before you physical data concerning the Isthmus of Panama, and to solicit your opinion as to the best plan to be followed in the completion of the Panama Canal within reasonable limits of cost and time.

"As you are aware, this question has been the subject of prolonged and elaborate studies for many years by numerous able engineers. A vast amount of labor has been expended in the collection of information concerning the physics of the isthmus, and digesting it and formulating it into plans for a canal.

"During the last year, additional surveys and observations have been made on the isthmus, the result of which is laid before you. It may be stated here in general terms that the information which they furnish does not involve any radical change in the plans previously favored. Among the observations alluded to, to be included, is the experience of the last year in excavating Culebra cut, from which some of our engineers have drawn unwarranted conclusions as to the probable cost of the work. There is nothing in this experience to justify the belief that the unit prices used in previous estimates were too high, or that the estimate of the time required for completing the work was too liberal. Nevertheless, the acceptance has been used as an argument in favor of a sea-level canal, which plan had been condemned by two commissions. It becomes necessary to consider once more the sea-level canal scheme.

"The plan discussed in the first pamphlet (which is submitted among other papers) is the one which was adopted by Congress—at least by inference—in the act approved June 28, 1904.

DIDN'T STEAL THE MONEY.

Capitalist Pfister of Milwaukee Explains Why His Indictment was an Injustice.

(BY THE ASSOCIATED PRESS—P.M.)
 MILWAUKEE, Sept. 1.—Charles F. Pfister, the capitalist, who was indicted three weeks ago by the grand jury on the charge of having stolen \$14,000 which had been placed in his hands by the Wisconsin Rendering Company, will make public tomorrow a statement showing the manner in which the \$25,000 which he had held for the company was disbursed.

After the indictment was returned the president of the Rendering Company denied that Pfister had misappropriated any of its money, and since then the company has made full payment on notes held against it by Pfister without offering any counter-claim. The indictment, however, has been circulated that the money, if not misappropriated, was used for a corrupt purpose by Pfister.

The statement now issued is corroborated by the bank record showing Pfister's personal account, by a statement signed by President F. G. Genoss, Joseph Schatz and Louis Schoyer of the Wisconsin Rendering Company, and also by a statement issued by John J. Crilly, the contractor to whom most of the money was paid.

The payments show conclusively that Pfister did not steal any of the rendering company's money, and also that he did not use any of it in an improper manner. The statement issued seems to show that there is no basis either for the indictment on a charge of larceny nor for the accusations that the money held by Pfister was used by him corruptly.

CONDITIONS KEPT DEEP SECRET.

SWEDEN'S TERMS FOR DISSOLUTION HANDED NORWAY.

Negotiations May Last for Months, Which Indicates That Some of the Conditions are Unacceptable—Prince Charles of Sweden Favored for King of Norway.

(BY THE ASSOCIATED PRESS—P.M.)
 KARLSKRONA, Sept. 1.—The Swedish and Norwegian negotiators, appointed to discuss the dissolution of Norway and Sweden, who assembled here yesterday, met again this morning and in the afternoon. The Swedish conditions were submitted at the morning session. The utmost secrecy was maintained. Not a word was given out.

PROTRACTED NEGOTIATIONS.
 (BY THE ASSOCIATED PRESS—A.M.)
 STOCKHOLM, Sept. 1.—The Dagblad this evening received a telegram from Christiania saying that immediately after the morning session of the commissioners at Karlskrona, a high authority received information from Karlskrona that the negotiations might last for weeks and perhaps for months. This would indicate that some of the conditions are unacceptable.

SWEDEN WILL YIELD.
 (BY THE ASSOCIATED PRESS—A.M.)
 COPENHAGEN, Sept. 1.—It is expected that the negotiations between Norway and Sweden will soon result in a full agreement on the subject of the dissolution of the union. Well-informed persons presume that Sweden will give up her claim for the raising of the fortresses on the Norwegian frontier, being satisfied if the forts are not armed.

The Swedish court favors the candidacy of Prince Charles of Sweden for the Norwegian throne, but it is not certain that the Riksdag will accept the Norwegian offer of 700,000 crowns yearly as an allowance for the eventual king.

PEACE PALACE PLANS.

Architects of the World Offered Prizes for Designs by the Carnegie Foundation.

(BY THE ASSOCIATED PRESS—P.M.)
 NEW YORK, Sept. 1.—About \$15,000 in prizes and the honor of being one of the five architects who plan the peace palace for use of the permanent court of arbitration at The Hague was today offered to the architects of all nations in a prospectus issued by the Carnegie Foundation. This invitation was made to secure the ideas of many minds as to the most fitting edifice in which to house the tribunal which, it is hoped, will make war unnecessary. The five most successful architects will receive prizes, the largest of which is 12,000 guilders, a sum of money slightly less than \$2000.

In addition to their open offer to the world, the directors of the Carnegie Foundation, which will become the center of the five prize plans, has also issued a special invitation to certain eminent architects from each of the principal countries of the world, requesting them to join in the competition. The names of these men have not yet been made public.

The palace contemplated in the announcement is divided into two parts, one a court of arbitration, and the other a library, to contain about two hundred thousand volumes. The total cost is to be 1,000,000 guilders, which is about \$640,000.

Regulations for the competition allow seven months from the present date for the full completion of the architectural drawings. Copies of the rules and conditions of the contest will be issued at the New York office of the Netherlands Consul.

HITCH HAS ARISEN AS TO SAKHALIN.

Russia Does Not Wish Japan to Put Fortifications on Her Half.

Agreement Arrived at Providing for an Armistice at the Conclusion of the Treaty—Russians Give Way on This Point—Witte and Komura Have a Brief Conference—Martial Law to be Abolished in Warsaw.

(BY THE ASSOCIATED PRESS—P.M.)

PORTSMOUTH (N. H.) Sept. 1.—The only possible hitch on the horizon of the peace conference, according to reports current here, which, however, are not officially confirmed, arises out of an evident misunderstanding over the question of the neutralization of the island of Sakhalin.

The ceremony of signing the "Treaty of Portsmouth" will be as quiet and unostentatious as possible. Both sides desire to avoid any spectacular features. Both realize that the treaty will not be popular in their respective countries. In Japan, especially, there is expected to be a great popular outcry.

"We know," said a member of the Japanese mission today, "that we are going home to stones, and perhaps dynamite."

No arrangements looking to a joint farewell visit to the President have been made or even suggested. Baron Komura and Witte will go separately to Oyster Bay to express their thanks on behalf of their respective countries and say good-by. Witte expects to sail September 12 on the Kaiser Wilhelm II. Baron Komura has engaged cabins on a steamer sailing from the Pacific Coast September 20. He and his suite expect to leave New York September 12. The projected trips of the missions to the White Mountains have practically been abandoned, owing to lack of time.

"The treaty of Portsmouth" is to be given to the world. There is to be no secret about it, neither government having any reason to withhold it. Its provisions are therefore to be published upon the citizens of America to be published, but not immediately. Witte said to the Associated Press tonight that he had not given out until the final ratifications had been exchanged by the sovereigns of the two countries.

The treaty will be engrossed on the treaty paper of the American State Department, a peculiarly fine quality of linen parchment paper. Two of the calligraphers of the State Department have been sent for to come here and do the engrossing. It is officially stated that the President will not come to Portsmouth to be present at the signing of the treaty.

WITTE AND KOMURA.
 (BY THE ASSOCIATED PRESS—P.M.)
 PORTSMOUTH, Sept. 1.—As a result of the reports made tonight by De Maartens and Denison to their respective chiefs upon their work this afternoon at the navy yard in the drafting of a treaty of peace, Witte and Baron Komura had a brief conference in the former's apartments at 8:30 o'clock tonight regarding some details of translation and the few points of interpretation upon which the framers had been unable to reach complete accord.

When Baron Komura left Denison and Adachi, he entered the apartments of Witte, where they were joined by De Maartens and Plancon. This conference lasted for about half an hour, when the Japanese returned to Baron Komura's apartments, leaving Witte and his conferees, who remained in conference for more than an hour.

Witte and Baron Komura had no difficulty in coming to an agreement on the disputed points, and at tomorrow's session the framers of the treaty expect to complete their work. The treaty must then be engrossed in French and English, in duplicate, which may take several days. It is stated tonight that twelve articles of the treaty have been completed and agreed upon. It now seems probable that the framers will be able to confine the treaty to fourteen articles, instead of fifteen, as was the original plan.

Witte continues to receive messages of congratulation from all over the world. He reads each one of them, and gives directions to his secretaries regarding the answers to be sent.

PEACE IN WARSAW.

(BY THE ASSOCIATED PRESS—P.M.)
 WARSAW, Sept. 1.—It is said that Gen. Skallan, the new Governor-General, intends to abolish martial law, normal conditions having been resumed.

FRANCIS JOSEPH WIVES.

HONOR TO BOTH NATIONS.

(BY THE ASSOCIATED PRESS—A.M.)
 VIENNA, Sept. 1.—(By Atlantic Cable.) Emperor Francis Joseph, in addition to telegraphing his congratulations to President Roosevelt on the conclusion of peace by Russia and Japan, telegraphed to Emperor Nicholas and to the Emperor of Japan. To the Russian Emperor he wired: "I learn with keen satisfaction the conclusion of peace on conditions."

TO CHANGE THEIR NAMES.

Cupid Wrecks Hopes in the Ranks of the Teachers of Chicago Public Schools.

(BY DIRECT WIRE TO THE TIMES.)
 CHICAGO, Sept. 1.—(Exclusive Dispatch.) Cupid has wrought havoc in the ranks of the teachers of the public schools. At least forty were told to the altar during last summer, and nearly all will forsake pedagogy for matrimonial happiness. It is expected that when the schools open, next week, the number to be brides will be considerably augmented, and probably seventy-five schoolrooms will suffer loss of rulers.

At the Board of Education rooms, the names of schoolma'ams who have agreed to change their names are withheld.

THOUSANDS TO ENCAMPMENT.

GRAND ARMY VETERANS ARE POURING INTO DENVER.

City Authorities to Issue a Proclamation Calling Upon Citizens to Open Their Homes to the Guests if Crowds Continue to Arrive—Gen. Stone Arrives in the City.

(BY THE ASSOCIATED PRESS—P.M.)

DENVER, Sept. 1.—Thousands of visitors, attracted by the Thirty-third Annual Encampment of the G.A.R., which opens three days hence, continued to pour into Denver today, and the streets tonight presented an animated appearance.

Col. A. J. Woodside, chairman of the Information and Accommodations Committee, reports that all arrivals were met by representatives of the committee and escorted to quarters promptly.

Although the crush began considerably earlier than was anticipated by the local Executive Committee, the situation is well in hand, and the members of the committee substantially announce, even should the maximum estimate of the probable number of visitors be realized, 150,000, none will suffer from lack of room. Should it become necessary, a proclamation will be issued by the city authorities, calling upon the citizens of Denver to throw open their homes to the city's guests.

Mayor Speer has issued a warning to proprietors of eating-houses, etc., that the usual rates for services must prevail during the encampment.

The managers of the Labor Day parade, Monday next, issued orders today releasing members of certain craft from the obligation of taking part in the parade, so that the comfort of visitors might be better assured. Commander-in-Chief John R. King and party will arrive tomorrow morning.

Every moment of his time has been assigned in a schedule prepared by the Executive Committee, and his duties as official head of the encampment promise to be extremely onerous. It is freely predicted on all sides that this encampment will be the largest and the busiest in recent years.

Among the prominent arrivals today was Gen. George Stone, Past Commander of the Department of California and Nevada. Gen. Stone is a candidate for the office of Commander-in-Chief.

BALDWIN PERHAPS A SUICIDE.

SAN ANTONIO (Tex.) Sept. 1.—(Exclusive Dispatch.) Prof. John R. Baldwin, who was killed in the balloon ascension at Greenville, O., may have committed suicide in this tragic manner, according to his former associates and friends in this city. Prof. Baldwin was once a San Antonio newspaper and was known as "Will" Ivy. His brother, Clarence Ivy, was found dead in a hut, where he had been living in poverty. The news reached "Will" Ivy, or Prof. Baldwin, before he made his fatal ascension. There always was a strong affection between the two brothers and this leads Baldwin's friends here to believe that the two deaths within such brief time was more than mere coincidence.

ATE DEAD RELATIVES.

Natives of Congo Compelled to Horrible Diet by Brutal Officials.

(BY THE ASSOCIATED PRESS—P.M.)
 PARIS, Sept. 1.—(By Atlantic Cable.) As a result of the investigation of Count De Brazza, the African explorer, into charges of brutality against the natives of the French Congo, the government announced today that the two chief colonial functionaries, MM. Gaud and Toque, have been sentenced to five years' imprisonment.

The charges included compelling the natives to eat a dish made of the flesh of dead relatives and also exploding cartridges inserted into the bodies of natives.

SEVEN NEW CASES.

(BY THE ASSOCIATED PRESS—A.M.)
 DANEIG (Prussia) Sept. 1.—Seven new cases of cholera were reported officially to the provincial government today.

ONE DEATH AT CULM.

(BY THE ASSOCIATED PRESS—A.M.)
 CULM (Prussia) Sept. 1.—Two new cases of cholera, one death and three suspected cases of cholera were reported here today.

TWO DEATHS AT LEMBURG.

(BY THE ASSOCIATED PRESS—A.M.)
 LEMBURG (Austria) Sept. 1.—Two deaths from cholera have occurred here and several suspected cases are under observation. The deaths occurred in the family of a river boat man who has been working in the Vienna district of Prussia.

DRANK INFECTED WATER.

(BY THE ASSOCIATED PRESS—A.M.)
 RAFFENBURG (East Prussia) Sept. 1.—A woman named Döbber, who died of cholera here yesterday, came from Bochum, with her family, by way of Berlin. It appears that she drank water at a railroad station on the way here and it is presumed that it was infected.

SUSPECTED CASES REPORTED.

(BY THE ASSOCIATED PRESS—P.M.)
 VIENNA, Sept. 1.—Several cases of suspected cholera are reported from

FIGHTING CHOLERA.

Germany Aroused to Her Danger.

Forty-three Cases in All So Far Reported, and Nine Persons Die.

Grave Fears That Russia Has Not Awakened to Her Peril as Yet.

Plague Left Arabia in the Beginning of Year and is Now at Volga.

(BY THE ASSOCIATED PRESS—P.M.)

BERLIN, Sept. 1.—Forty-three cases of cholera in all have been reported. Nine persons have died from the disease and many suspicious cases are under observation. The legal and medical machinery for dealing with this invasion of the Asiatic bacillus is now working at full pressure.

Prof. Edward Sonnenberg said to the Associated Press tonight that no one need fear an epidemic such as that of 1892-93, because the health authorities since that time had built up an organization quite adequate to grasp the beginnings of such cholera and to put down the disease with precision and firmness.

The health machinery to which Prof. Sonnenberg alluded is working in cooperation with the police and other public services. With the exception of the one death at Hamburg, the cholera is confined to the West Prussian districts, and every case of illness in these districts must be immediately reported to the authorities. An experienced physician and bacteriologist at once takes the case under observation, and if the symptoms are suspicious the person is promptly isolated.

The State has now detained under medical observation nearly one thousand persons, including the emigrants at Bruns Haven. Cautions and warnings have been distributed and these have led to spontaneous and intelligent cooperation with the sanitary officers.

If the same agencies and the same spirit were at work beyond the Russian frontier the Russian health administration would feel satisfied with what is being done. A doubt, almost amounting to conviction, exists that the Russian administration has not yet been aroused to the danger, and that its task of dealing with the problem is much more difficult than that which confronts the authorities here.

The Wiesbaden correspondent cites the recent declaration of the Russian Plague Commission that since April 21 no cases of cholera has occurred in the Russian empire, and that no suspicious cases reported in Vilna, Riga, Baku, Toul, Baku, and other places were, as bacteriological investigations showed not Asiatic cholera.

"Where, then," says the paper, "did the Asiatic cholera now in West Prussia come from?" As a matter of fact, it goes on to say, "The Prussian health officials were apprehensive of the existence of cholera since the beginning of the year and their reports showed that the pestilence had left Arabia and was marching over Syria, Mesopotamia and Persia, thence across the Caspian Sea into European Russia and onward to the Volga."

The Bourne today felt the effect of the prevalent cholera, especially shipping companies, the shares of which fell from 3 to 4 per cent.

WYMAN TAKES MEASURES

(BY THE ASSOCIATED PRESS.—A.M.)

WASHINGTON, Sept. 1.—The authorities of the Public Health and Marine Hospital Service are not apprehensive over the outbreak of cholera in Bremen. They say that in the past the German authorities have generally been able to control such epidemics and suppress confidence that they will be able to do so in the present instance.

Burgess-General Wyman has already taken measures to prevent the spread of cholera from Germany to the United States by ordering Post Assistant Surgeon McLoughlin, now stationed at Naples, to proceed immediately to Hamburg and make a thorough investigation and to report in detail. He also has been directed to be prepared to enforce the treaty regulations relative to ships leaving for American ports. These regulations authorize the detention of suspected passengers and the fumigation of baggage when thought advisable. Dr. McLoughlin, however, will not return to these measures until advised by the wisdom of applying them.

Surgeon-General Wyman, at Philadelphia, will soon join Dr. McLoughlin. Dr. McLoughlin and Wyman both had experience in dealing with cholera.

FACILITY FOR INVESTIGATION

EQUITABLE WILL WELCOME IT, SAYS THOMAS F. RYAN.

Thinks the Present Reorganization of the Company Will Result in the Resumption of the Public's Confidence in It—Federal Supervision Will be Welcomed.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Sept. 1.—[Exclusive Dispatch.] Thomas F. Ryan, a leading figure in the attempt to put the Equitable Life Assurance Society on a solid basis, arrived last night from Seattle in the private car in which he left New York, August 14, attached to the regular train. Ryan proceeded at once to the St. Francis Hotel, where, after giving an interview to representatives of the press related to the reorganization of the company, he said:

"The present reorganization of the Equitable will undoubtedly result in the resumption of the public's confidence in the company," said Ryan. "The Equitable is as strong as the bank of England, and will safely weather the present storm. The character of the company is such that it is the best possible guarantee that every thing will be done to safeguard the interests of the policy holders."

"The investigation which the New York Legislature is about to make will be thoroughly satisfactory to those in possession of Equitable stock. Every facility will be afforded to the committee, so that full and thorough investigation will be made. If any evidence is discovered that any person has broken the law, he will receive just and prompt punishment, and if any property is found to be in possession of any individual he will be compelled to return it to the society."

"The time is undoubtedly coming when the Federal government will have the same supervision over life insurance that it has over banks and other similar financial institutions. Such action is welcomed by the Equitable and its officers. Investigation by the New York Legislature will, we hope, result in similar action regarding other companies in the same line of business, and this will be only fair to the policy holders of all companies."

AGAINST CORRUPTING AGENTS

ALBANY (N. Y.) Sept. 1.—An act of the last Legislature takes effect today which is decidedly against the practice of corrupting purchasing agents, whether they be the maid servant whom the grocer gives a bonus in return for her misadvised trade or the agent of a great commercial house whose patronage may mean thousands of dollars a year to the manufacturer who gets it. This law makes it a misdemeanor punishable by a fine of \$100 or by a fine and imprisonment to give, offer or promise an agent, employee or servant of a corporation, gratuity, bribe or other thing of value in relation to his employer's business. The penalty also applies to agents who request or accept gifts or commissions given for this purpose.

BIG ROBBERY IN GOTHAM

Joe Aymer's Residence on Fifty-fourth Street is Plundered Extensively.

(BY THE ASSOCIATED PRESS.—A.M.)

NEW YORK, Sept. 1.—Joe Aymer's residence at 54 West 54th street has been plundered during the past week of jewelry, bric-a-brac, paintings, silver, etc., worth, it is alleged, more than \$100,000. The police made the robbery public late tonight.

Aymer is a millionaire lawyer who married Miss Lillian Vandewell. The family is in Canada. A caretaker of adjacent property heard noise of persons moving in the house during the last week, but paid no attention to them until Thursday evening, when he saw three suspicious-looking men walk out of the basement door, carrying bundles and bags, and notified the police. The police telegraphed to Aymer and he wired his valet to take charge of the house.

"There were \$200,000 worth of paintings, jewelry, silver and bric-a-brac," said the valet tonight, "and fully half of it is gone."

GET READY FOR TROUBLE.

Union of Strike Breakers is Formed in Chicago.

It Expects to Have Dealings With the Printers.

Santa Fe Blacksmiths Fail to Jump Their Jobs.

(BY THE ASSOCIATED PRESS.—A.M.)

CHICAGO, Sept. 1.—Believing that their services will soon be in demand again owing to the present strike, a special deputy sheriff and policeman held a secret meeting yesterday and organized a strike breakers' union.

A scale of wages of not less than \$3 a day and \$5 if it can be secured, was fixed. Charles E. Turk, a discharged policeman, was elected president. Then each of the 110 charter members paid \$5 cents for expenses.

Turk produced a book and said that everyone present must sign it, the idea being that the first man that signed was to get the first position. A large number fell over each other in their haste to sign the book.

LYNCH FOR STRIKERS' SPREAD.

(BY THE ASSOCIATED PRESS.—A.M.)

CHICAGO, Sept. 1.—Spread of the job printers' strike to other cities is a possibility following the arrival of James Lynch of the International Typographical Union tomorrow. In a conference here, President Lynch will talk over the situation as it applies to Chicago and the whole country with President Wright, John C. Harding and other Chicago leaders. After the conference a letter will be issued calling out printers in several large cities where the National Typographic has shops.

It is urged that with strikes going on in other cities the Chicago typographers will be unable to get men to come here to take positions.

The typographic convention will be held at Kansas City, Mo., next week.

Some of the typographical officials believe they should try to weaken the employers' position by calling the men out before the masters gather at the convention and make concerted action.

METAL WORKERS STRIKE

MUCH BUILDING IS AFFECTED.

(BY THE ASSOCIATED PRESS.—A.M.)

NEW YORK, Sept. 1.—A strike of the sheet-metal workers in this district was called last night by the Amalgamated Sheet Workers' Union. About 1200 members attended the meeting and the call for the strike was almost unanimous. The strike will affect about 200 buildings in construction and about 200 shops in which the metal workers are employed.

The men demand an advance of 50 cents a day. Their wages now are \$4 a day. They claim that about a year ago they entered by contract into the strike where they were to receive the raise last January. The men did not get the raise, but the employers got the benefit of the strike.

It is expected that the strike will be a long one, as the employers are not likely to give in to the demands of the union.

BLACKSMITHS DO NOT STRIKE.

SANTA FE GETS 'ULTIMATUM.'

(BY THE ASSOCIATED PRESS.—A.M.)

TOPEKA (Kan.) Sept. 1.—Blacksmiths employed at the Santa Fe shops did not strike today, as was expected. The blacksmiths today issued a statement giving the reasons for their decision to withdraw the bonus system from the shops. Unless the bonus system is withdrawn by the end of the month, the blacksmiths' union must call a strike at the shops or leave the American Federation of Labor.

F. T. Bolte, W. F. Stark and W. M. Nelson, the three striking Santa Fe blacksmiths who fought with H. H. Germain, chief of the Santa Fe secret service, and a half dozen other company detectives, were discharged in court at their trial here today. The fight occurred at the Santa Fe shops here on the evening of July 31 and severe injuries were inflicted on both sides.

CHIN-MUSIC OVER MUSIC

CHICAGO LABOR-DAY PARADE.

(BY THE ASSOCIATED PRESS.—A.M.)

CHICAGO, Sept. 1.—Prospects for holding a successful Labor Day parade received another blow today when union musicians informed the Chicago Federation of Labor that they would withdraw from the line of march rather than play with men who were unfriendly to the labor cause.

The decision of the musicians threatened to ruin the parade, as the labor union has decided that only those musicians who wear the regulation uniform or appear in civilian clothes will be permitted to play, but the teamsters and freight handlers have issued a declaration to this effect: "The labor union is to this ultimatum and have engaged bands whose members wear union uniforms."

A number of the teamsters and freight handlers' locals further declared that if the bands they have engaged are refused a place in the parade they will not march.

This will draw 15,000 men from the parade.

Strike Against Food.

EVERETT (Wash.) Sept. 1.—Four hundred employees in two camps of the Three Lakes Lumber Company threw down their tools and quit work at noon today because the food did not suit them. When the men demanded better food or their pay they were given their money. Three Lakes is twelve miles west of Everett.

Glass Workers Will Work.

CLEVELAND, Sept. 1.—The announcement was made at headquarters of the Amalgamated Window Glass Workers here today that 5000 men will go to work tomorrow. This means that twenty-one factories, representing 624 pots, will start operations.

Machinists' District Lodge Meets.

TOPEKA (Kan.) Sept. 1.—The annual meeting of the district lodge of the International Association of Machinists commenced here today. The district includes all local unions at points on the Santa Fe system. About fifty delegates are in attendance. The meeting was called to order by President C. C. May of Fort Madison, Iowa. After a number of committees had been appointed, adjournment was taken until tomorrow.

DR. CLARKE LIBERATED.

KINGSTON (Jamaica) Sept. 1.—Dr. Franklin Clarke of Boston, Mass., who was arrested here July 1 and tried yesterday before the Chief Justice for breach of the secret act by taking photographs of the fortifications at Port Royal, was liberated today.

PEACE.

(Continued from First page.)

which maintain, intact, the honor and prestige of your empire. Permit me to congratulate you with all my heart upon this happy issue."

To the Emperor of Japan, Emperor Francis Joseph and the British.

"I beg Your Majesty to accept my most sincere congratulations upon the occasion of the conclusion of peace conditions which constitutes a fine example of moderation which does honor to Japan."

ANGLO-JAPANESE TREATY.

(BY THE ASSOCIATED PRESS.—A.M.)

LONDON, Sept. 1.—Diplomatic circles here are taking deep interest in the new Anglo-Japanese treaty, but as yet they are not in possession of anything but the brief outlines already published. They are satisfied that it provides a defensive alliance on one hand, guaranteeing Japan the fruits of her victories in the Far East and on the other hand ensuring Great Britain against aggression in India. The diplomats express themselves well satisfied that it guarantees peace in German circles, the treaty is looked upon favorably. It is expected that it will be promulgated upon the signing of the Portsmouth treaty.

FINLAND'S SURPRISE.

(BY THE ASSOCIATED PRESS.—A.M.)

HELSINKI, Sept. 1.—The conclusion of peace at Portsmouth came as a great surprise to the people here. Peace was earnestly desired, because Finland, in the long run, might suffer heavily under the influence of which so far has not been heavy. No demonstrations of any kind occurred. On account of the arrangement by which the Finns are excused from military service in consideration of the annual payment of \$200,000, the Emperor's concession to the Finnish objects to conscription, the last remnant of Finland's military power has been disbanded. The disbandment deeply touched Finnish pride, and has caused a great deal of uneasiness.

EXPRESSION FROM TOLSTOI.

(BY THE ASSOCIATED PRESS.—A.M.)

MOSCOW, Sept. 1.—Count Tolstoy received information Tuesday that peace at Portsmouth was practically assured according to an intimate friend of the family. Commenting then upon peace as an established fact, Count Tolstoy said:

"I am indeed very happy to see the end of this fearful butchery, but it is a great pity that this war will not be the last. I cannot but believe that the cause nations will fight each other so long as the social system remains unchanged, so long as there are social threats are considered dogmas of society."

Tolstoy made no comment on the conditions of peace, declaring them to be quite unimportant in comparison with the results to be attained through the conclusion of the war.

SHAH HAS ARRIVED.

(BY THE ASSOCIATED PRESS.—A.M.)

ST. PETERSBURG, Sept. 1.—The Shah of Persia, who is expected to arrive here tomorrow, will reach Petrograd Saturday afternoon.

KAKSANOFF TAKEN OFF.

(BY THE ASSOCIATED PRESS.—A.M.)

ST. PETERSBURG, Sept. 1.—Gen. Kaksanoff, commander of the military district of Odessa, has been placed on the retired list as the result of the disorganization of the army.

WITTE DENIES INTERVIEW.

(BY THE ASSOCIATED PRESS.—A.M.)

PORTSMOUTH (N. H.) Sept. 1.—Witte desires to state that the report that he had been interviewed by the St. Petersburg Slovo and telegraphed back to Europe and America, is entirely untrue.

HIS DAUGHTER'S NECKLACE.

(BY THE ASSOCIATED PRESS.—A.M.)

BRUSSELS, Sept. 1.—A \$5000 pearl necklace was stolen from Mrs. Narychinsk, wife of Cyril Narychinsk, secretary of the Russian legation here, and daughter of Witte, the Russian minister in London, at the theater tonight.

OPENING THE UNIVERSITY.

(BY THE ASSOCIATED PRESS.—A.M.)

ST. PETERSBURG, Sept. 1.—The opening of the University of St. Petersburg, which has been closed since February, when the students and faculty told their heads the government was resolved to suppress the disturbances, no matter what loss of

life might be incurred thereby. He ordered the deputations to leave St. Petersburg forthwith and threatened that if the Livonians did not do so they would be proceeded against.

DR. NOT FARE CENSOUS.

(BY THE ASSOCIATED PRESS.—A.M.)

PORTSMOUTH, Sept. 1.—Cable communication between Baron Komura and his government has been interrupted for the time being by the fact that a message is said to have been received late tonight. Baron Komura and Takahira were in conference for a long time tonight. It is understood to be the present intention of the Tokyo government not to make public the conditions of peace until the ratification of the treaty has been exchanged. The official explanation is that this is the "regular diplomatic method of procedure," but among the Japanese correspondents considerable suspicion has been aroused by the fact that until now the cablegrams giving the terms of peace have passed the censor. They did not hesitate to say the government is anxious about the effect on public opinion when it becomes known that the "regular diplomatic method of procedure" is being used.

Baron Gadamatzky says: "In my estimation peace was forced upon the belligerents, not through lack of men, but of money. There is no likelihood of a permanent peace. The real danger lies in the alliance of the Asiatic races."

Baron Gadamatzky, a Danish Deputy, says: "Japan lost a far greater number of men, especially at Mukden, than we. Japan is developing her commerce on purpose to recoup herself."

GARCIA ASSUMES PRESIDENCY.

GUAYMAS, Sept. 1.—Señor Lizardo Garcia, who was elected President of the Republic of Mexico, assumed the Presidency today. Señor Garcia was a Liberal candidate for the Presidency. He had the support of the government and the army. He was elected by a large majority.

At the Burbank home the visitors were shown pictures of the various developments of fruits and flowers, which were the result of the experiment. SEPTEMBER 2, 1905.

SATURDAY, SEPTEMBER 2, 1905.

PACIFIC SLOPE. PORTLAND IS FIRE-SWEPT.

Docks, Warehouses and Lumber Destroyed.

Total Loss Approximates Over Quarter Million.

Insurance Will Cover a Good Proportion of Loss.

(BY THE ASSOCIATED PRESS—P.M.)

PORTLAND (Or.) Sept. 1.—With a gale blowing at the rate of thirty miles an hour from the east, fire today, starting about noon, destroyed the docks of the Oregon Railway and Navigation Company and the Pacific Elevator Company's warehouse in Lower Albina. The wind carried the flames across Willamette River and the dry wharves of the Eastern and Western Lumber Company on the West Side were also burned.

Previously, a fire at St. Johns, a suburb of this city, one and a half miles down the river, had destroyed the plant of the St. Johns Lumber Company, the Oregon Fire Company's store house and the wood yards of the Peninsula Wood Company.

A hundred freight cars on the O. R. & N. in lower Albina caught fire and twenty-five of them were completely destroyed, including their loads of wheat, lumber and miscellaneous freight.

The total loss will approximate over \$250,000. The amount of insurance is not known at present, but it is stated that the insurance will cover a good portion of the loss.

Among the heavy losses are the following: Elevator dock, owned by Pacific Coast Elevator Company, building and contents, \$25,000; Albina dock, belonging to Oregon Railway and Navigation Company, building and 600 tons of wheat, \$10,000; freight cars O. R. & N. company, \$20,000; dry kiln Eastern and Western Lumber Company, \$20,000; St. John's Lumber Company mill, \$25,000; lumber, \$20,000; Oregon Fir Lumber Company mill, \$60,000; lumber, \$20,000; Peninsula Wood Company, 150 cords of wood, \$20,000.

CHARMED AND AMAZED.

SCIENTIST VISIT BURBANK.

(BY THE ASSOCIATED PRESS—P.M.)

SANTA ROSA, Sept. 1.—[Exclusive Dispatch.] Thirty-four members of the Anthropological Society made a pilgrimage today to Luther Burbank, the eminent horticulturist. They saw his work talked with him, made a thorough inspection of the premises and returned to San Francisco on the afternoon train, delighted.

A member of the party summed up the visit: "Luther Burbank is a genius; we were all charmed with the man and amazed at the breadth and scope of his work and accomplishments."

At the Burbank home the visitors were shown pictures of Burbank's developments of fruits and flowers, which elicited hearty applause. Pictures of his work, painted from the Burbank and pink cacti brought much admiration.

After chatting with Burbank about his work, the anthropologists were escorted through the flower gardens and were shown spinous and spinous-like plants, the everlasting Australian star flower and a variety of spinous cacti. Many grasses under experiment by Burbank were also in flower.

DISAPPEARS IN THE KOYUKUK.

BOD MORRISON NOT FOUND.

(BY THE ASSOCIATED PRESS—P.M.)

TACOMA, Sept. 1.—[Exclusive Dispatch.] Couriers reaching Fairbanks bring news of the probable death of Bod Morrison, on Koyukuk River. Morrison was well known among old timers. Recently, he, with James Morgan and Tommy McIntyre, started up John's River, which empties into the Koyukuk.

The party moved sixty miles up the river, where they were stranded. Morgan and McIntyre volunteered to hunt for Morrison, but they were unable to find him. His gun and all his personal effects were found in camp and there was no evidence of a struggle.

There have been many strange disappearances along the Koyukuk. The disappearance of Lewis and Burns, in November, 1897, who were generally supposed to have perished, has been revived. Prospector Powell, well known to the interior, claims to have seen the bones of Lewis and Burns in the Koyukuk.

"BATTING" NELSON OUTDOORS.

PREPARING FOR BIRTH.

(BY THE ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Sept. 1.—"Battling" Nelson today began outdoor boxing in preparation for his match with Brit, September 1. A peculiarity of today's boxing was that most of the pugilist's sparring partners were from the Olympic Club, which claims Britt as its member. Next week Nelson, proposes to take his boxing exercises in the ring at Colma where the fight will take place. It is expected that the arena will be completed by Monday.

Arrangements have been made to erect between twelve and thirteen thousand people, and the management is looking for a \$15,000 "house." There are only a few hundred seats left unsold, and it is expected that these will be taken up tomorrow.

The betting changed today from 10 to 9 to 10 to 7 1/2, with Nelson at the short end. Britt continued his usual work at the beach and, as usual, his work was watched by many visitors.

SLOPE BRIEFS.

Struck by Engine.

OAKLAND, Sept. 1.—While trying to cross the railroad tracks at the Twenty-third street, a rapidly approaching local train struck a twelve-year-old Isabella Comash and her skull so badly fractured as to leave no hope for her life.

She Won't Accept Bonds.

SONOMA, Sept. 1.—Mrs. Martha Sargent, wife of the municipal bonds voted for a city hall here at \$500 premium, will not now accept the bonds, as there is alleged to be a flaw in the title. The election was held before the time required by law, which, it is declared, invalidates the bonds. Another bond election will be held.

Sawing Barge to Honolulu.

YELLOW FEVER AT PENSACOLA, FLORIDA.

(BY THE ASSOCIATED PRESS—P.M.)

NEW ORLEANS, Sept. 1.—Report to 6 p.m.: New cases, 39; total to date, 1905; deaths, 4; total, 231; next, 10.

WASHINGTON, Sept. 1.—Capt. Robert M. Berry, commander of the naval station at Pensacola, Fla., has informed the Navy Department that there are four cases of yellow fever in that city, and he recommended the establishment of a quarantine at the naval station against the city and the discontinuance of the work in the yard to the extent rendered necessary by the quarantine.

The Navy Department has approved the recommendation and has authorized the commander to restrict communication between Pensacola and the naval station as much as possible and to establish outposts to make the quarantine effective and to prepare buildings for isolating cases.

WILL FORGET IT SOON.

(BY THE ASSOCIATED PRESS—P.M.)

NEW ORLEANS, Sept. 1.—Signed statements of all the leaders in the fever fight, indicating that the crisis has passed, that the campaign of science is meeting with unbounded success, and that the fever will practically be forgotten by frost are printed here today.

QUARANTINE CONGRESS.

NASHVILLE (Tenn.) Sept. 1.—Gov. Coates today sent the following telegram to the Governors of all the States:

SOUTHERN STATES:

"Will you join with the Governors and commercial orders in a call for a southern conference on immigration and quarantine to be held at Chattanooga about November 1, next?"

The object of the proposed conference is to discuss uniform immigration and quarantine laws.

PANAMA EMPLOYEE STRICKEN.

NEW ORLEANS, Sept. 1.—For the first time in several weeks the number of new cases on a week day was below forty, which is regarded as cumulative evidence of the steady improvement in the local situation.

Among the new cases is Father Hope, a priest, who is recovering from the disease.

The outside infection is still a source of anxiety because, now that the city is being cleared of infection, there is danger of reinfection from the country.

Despite all the precautions which have been taken.

TWO CASES AT NATCHEZ.

(BY THE ASSOCIATED PRESS—P.M.)

NATCHEZ (Miss.) Sept. 1.—After an interval of six days since the discovery of yellow fever in this city, two cases were reported today.

BAN PLACED ON BOYCOTT.

China Issues Edict Holding Boycotters Responsible.

People Should Await Action of Both Governments.

News Reaches Oyster Bay from Minister Rockhill.

OSTER BAY, Sept. 1.—China has placed the boycott of American products under the imperial ban. An edict has been issued by the government commanding viceroys and Governors of provinces to take measures for the suppression of the boycott, and holding them strictly responsible.

The State Department at Washington has received a cablegram from Minister Rockhill, giving a summary of the edict. The cablegram was forwarded immediately to the President. The text of the cablegram follows: "Imperial edict published yesterday says that the long and deep friendship between the United States and China has never been tried as now. The United States government has promised to revise treaty, and people should peacefully await action of both governments. Boycott wrong and harmful friendly relations. It (edict) commands viceroys and Governors to take effective action, making them strictly responsible. Undoubtedly will have a good effect. Shanghai was reported yesterday situation improving."

SECRETARY METCALF INSPECTS.

ST. FRANCISCO, Sept. 1.—Secretary Metcalf of the United States Department of Commerce and Labor has made a personal inspection of the local bureau of immigration and Chinese affairs before his departure for Washington. In an office of the Chinese bureau, said, after the Secretary's visit, that while he could not give out the instructions issued by his chief, it was no secret that the views of the Secretary and the local officials are in harmony. The official added: "Incoming Chinese of the better classes have not been subjected to insult or injury here. There has been good deal of trouble with Chinese immigrants who have presented papers that were clearly fraudulent. The case is under consideration. There is to be an entire overhauling of the service on the other side, and that responsible inspectors will be assigned who will be required to certify to us the credentials of all entrants. That would effectively shut out the class of who have brought papers certifying that they were students and merchants."

TONGHAI FOR NEWCHANG.

SHANGHAI, Sept. 1.—There has been a large demand for Tonghai for Newchang, which meets with an excellent response. The Imperial edict received here today has greatly increased the effect of the anti-American boycott. In his decree the Emperor refers to the long friendship between the United States and China, and also to the desire expressed by the latter to negotiate amicably with the United States. He advises all Chinese to refrain from boycotting Americans while the discussion regarding the new treaty is proceeding.

FLASHES FROM THE WIRES

Cable communication between Manila and Japan is today interrupted. Messages are being sent forward by mail.

The eruption of the ancient crater in the island of Stromboli, which began Thursday last, continues to cause anxiety.

The board of directors of the Suez Canal Company yesterday appointed Chas. R. Perrier, former President of the French republic, vice-president of the company.

Carl Strom, chief of the mechanical department in the canal zone, resigned yesterday. It is reported that several changes will soon be made among the officials of the Panama Railroad.

A large battle with modern steel built in the moulding department of the United States Steel Corporation works, at Donora, Pa., yesterday. One man was killed and a cripple and six others were seriously injured.

A new star has been discovered by Mrs. W. P. Fleming of the Harvard Observatory in a constellation of Aquila, which at 5 p.m. just now is about on the meridian and half way from the southern horizon to the zenith.

A whole block of residences at Red Bluff was destroyed by fire yesterday. Six homes were burned, with a loss of \$15,000. The homes were those of Paul Bonnard, Frank Montgomery, Frank Carier, Frank Hughes, P. E. Collins and J. J. Shearing.

Gray Bros. and other contractors may now resume their blasting operations on Telegraph Hill at San Francisco without fear of police interference. The Supreme Court has decided that there was a decision in the case of Kelle, who petitioned for a writ of habeas corpus when convicted of violating the city ordinance prohibiting blasting within certain sections of the city.

Frank A. Maestretti, who was recently suspended from the office of Commissioner of Public Works, filed a bond yesterday to insure his official integrity, and was reappointed by the Mayor to his old position. The bond is furnished by the Fidelity and Deposit Company of Maryland and is for \$25,000.

A statement is made by M. N. Sheldon of the Butte County Canal Company that the canal will be extended into Butte county to Yuba City almost immediately. The canal is the original one who signed land for water have doubted their acreage, so as to increase the amount to 10,000 acres. The company will not undertake to extend the canal, he says, unless that amount of land is pledged for irrigation.

A number of prominent orchardists of Butte county do not agree with the State university experts and those of the United States Department of Agriculture, who have visited pear orchards at Marysville and stated that the trees were afflicted by blight. They claim the disease is caused by an excessive moisture in the ground caused by the fact that the trees are on low land that is continually moist, while on the high ground the pear trees are not diseased.

POPE'S NIECE DEAD.

VENICE, Sept. 1.—(Exclusive Dispatch.) The death took place today of the Pope's niece, Adelaide Barto, daughter of his brother. Pope Pius is much afflicted, as she was his favorite niece.

CANAL.

(Continued from First Page.)

1902. It is the plan under which the work is now progressing, and under which all work of construction has been done since the United States acquired the property. It closely resembles the plans of the Comité Technique described in the second pamphlet in many essential particulars, but differs from it in the height of the Bohio dam and the important results which flow therefrom. The advantages which its authors expected to derive from this change are:

"1. To take fuller advantage of the topography of the country, by which it was possible to make the gigantic spillway automatic instead of mechanical, and adequate for the discharge of the greatest floods, with only one channel to the sea instead of two.

"2. To increase the distance of lake navigation from seven to nearly thirteen miles.

"3. To reduce the estimated cost of the canal by about \$15,000,000.

"The disadvantage of the change is the somewhat greater difficulties in constructing the higher dam, and the locks of greater lift—difficulties, however, which are by no means insuperable.

"A disadvantage which the two plans have in common is that the rapid developments of naval architecture made it difficult to determine the proper dimensions of the lock chambers. It is to be considered, however, that up to the present time such development has not been greatly hampered by deficient depth in the harbors of the world, and that development hereafter will have that obstruction to contend with. Moreover, it is not possible to dispose with locks entirely. Even with the sea level canal, a tide lock will be required at the Panama end.

"A paper has been submitted to the President by P. Bunau-Varilla, which explains a method by which a canal constructed at the first with locks may be subsequently altered to a sea-level canal.

"Mr. Shonts at this point calls attention to that portion of the act of Congress which prescribes the physical features of the proposed canal, and directs that the work already done shall be utilized as far as possible. He concludes his letter as follows:

"The commission expects to visit the isthmus of Panama, sailing from New York during the last week in September, the exact date to be fixed hereafter. You are cordially invited to accompany them.

"This method of presenting the subject to you by offering several well-digested plans has been adopted because it seemed to be the method by which all essential information could be conveyed in the most condensed possible form. It is needless to say that the commission desired your opinion not only upon these plans, but upon any variation of them, or upon any entirely different plan which you might suggest. I feel that it is the most expedient, all things considered, for the United States to follow in the construction of the Panama canal."

MAKE-UP OF BOARD.

WASHINGTON, Sept. 1.—By the executive order, last June, a Board of Consulting Engineers was constituted, consisting of Gen. George W. Davis, Alfred Noble, William B. Parsons, William H. Burr, Gen. Henry L. Abbott, Frederick P. Stearns, Joseph Ripley, Isham Randolph, and all American engineers; Henry Hunter, named by the British government; Herr Eugene Tincanauer, nominated by the German government; M. Guérard, nominated by the French government; and J. W. Van Dine, nominated by the government of the Netherlands. It is this board which assembled today at the offices of the Isthmian Canal Commission. The members were met by Chairman Shonts, who in a few words expressed the belief that good results will follow their deliberations.

The Board of Consulting Engineers will have all the data that has been collected by the commission bearing upon the subject. This data may be considered sufficient by the board to determine whether the canal should be constructed with locks, or should be a sea-level canal, and if the former should be recommended, then details as to the character of locks will be taken under discussion. The recommendations will not be final, but will be made to the Isthmian Canal Commission, which, in turn, will use its own judgment in a report to the President. The canal question will be the type of the canal will be settled by the President and Congress.

In calling the meeting of the Board of Consulting Engineers, the President directed that it is to be a difference of opinion among the members, there should be a minority report, and it also was stated that the board might visit the isthmus before making its final report, if it should be necessary. The Board of Consulting Engineers will not have referred to it detailed questions of engineering connected with the construction of the canal, after the type has been determined.

Beyond making recommendations as to the type of canal, together with suggestions as to the method of constructing the lock canal, its duty, as at present defined and understood by the commission, will close.

The executive work of the Canal Commission has been much amplified by the selection of Mr. Wallace as chief engineer. Previous to that time, the duties of the commission as an executive body were distributed between Chairman Shonts, Chief Engineer Wallace and Gov. Magoon, Chairman Shonts having a general supervision of the work. Wallace was experienced in the work, but when John F. Stevens was made his successor as chief engineer, he was not made a member of the commission, but was employed by Shonts and the engineering and construction work is under his direction, instead of the general supervision of Chairman Shonts. Chief Engineer Stevens is not a member of the executive board of the commission. While the engineering work will be under the immediate supervision of Stevens, he will be assisted by the Committee on Engineering.

Such problems of a technical character as Stevens desires to be worked out will be submitted to the Committee

of Engineers. The problems which will be submitted to the Engineering Committee will not be numerous until the type has been determined, although it is said that the board that is to meet today will avail itself of the experience and advice of the Engineering Committee on account of the connection which the latter have had with the canal since the United States government took hold of the enterprise.

All members of the board were present today, when Gen. Davis called the meeting to order. The letter of the President convening the board was read, and an informal discussion followed as to methods of procedure and plans. It was decided to leave these arrangements to a committee consisting of Messrs. Davis, Parsons, Abbott, Randolph and Quellenne. While the board was in session, the members of the Isthmian Canal Commission called and were formally presented. The duties of the board are separate from the commission, and the commission simply provides rooms, clerks, interpreters and facilities for the transaction of the business of the board. Capt. J. A. Oakley, Corps of Engineers, U.S.A., is secretary of the board.

The afternoon session was held in the morning. A number were in favor of New York, but others declared in favor of Washington, and it was determined that the meeting would be held in this city. A suggestion was made that the sessions should be public, but this was decided in the negative. An executive committee consisting of Messrs. Davis, Burr and Parsons was created to handle the general affairs of the board. The meeting adjourned until 11 o'clock tomorrow morning.

PUBLIC DEBT STATEMENT.

INCREASE FOR JULY SHOWN.

WASHINGTON, Sept. 1.—The monthly statement of the public debt shows that at the close of business August 31, 1906, the debt, less cash in the treasury, amounted to \$1,065,524,535, which is an increase as compared with last month of \$1,475,543. This increase is accounted for by a corresponding increase in the amount of cash on hand. The debt is recapitulated as follows: Interest-bearing debt, \$865,154,709; non-interest-bearing debt, \$199,369,826; total, \$1,064,524,535. This increase is accounted for by a corresponding increase in the amount of cash on hand. The debt is recapitulated as follows: Interest-bearing debt, \$865,154,709; non-interest-bearing debt, \$199,369,826; total, \$1,064,524,535.

GOVERNMENT FINANCES.

CUSTOMS RECEIPTS INCREASE.

WASHINGTON, Sept. 1.—The feature of the monthly report of the government receipts and expenditures for the month of August is the exceptional increase shown in customs receipts. The excess of receipts over expenditures for the month of August is \$1,475,543. The receipts from internal revenue sources also show an increase.

The total receipts for the month are \$1,475,543 and the expenditures \$2,951,087, which leaves a deficit for the month of \$1,475,543. Last month the deficit was \$1,475,543. The receipts from the several sources are given as follows: Customs, \$1,475,543; internal revenue, \$1,475,543; miscellaneous, \$1,475,543.

The civil and miscellaneous expenditures were a little over \$1,000,000 in excess of those for August, 1905. The expenditures were nearly \$1,000,000 less than those for August, 1905. There was a slight increase. Other items show only slight increase or decrease.

PRESIDENT'S RETURN.

POPULAR DEMONSTRATION.

WASHINGTON, Sept. 1.—(Exclusive Dispatch.) Orders have been received here that the White House be made ready for occupancy by September 20. It is inferred from this that President Roosevelt will return to Washington about that time.

A movement has been started for a public demonstration upon the occasion of the President's return. J. W. Van Dine, one of the commissioners of the District of Columbia, has heartily endorsed the idea and has written to Secretary Lusk, informing him of the general desire here to extend to the President a popular welcome upon his return, and expressing the hope that the idea will be acceptable to the President.

PRESIDENT GOING SOUTH.

FLORIDA BY A SHORT CUT.

WASHINGTON, Sept. 1.—(Exclusive Dispatch.) Upon his return to Washington, this month, the President will make arrangements for a trip through the South, during which he will visit Florida and Arkansas.

These are the United States in this country which he has not visited while he was President. While the President is making this trip to the South, Mrs. Roosevelt will go to the farm in Virginia which she purchased last year.

WASHINGTON BRIEFS.

Monthly Circulation Statement.

WASHINGTON, Sept. 1.—The monthly circulation statement issued by the Comptroller of the Currency shows that at the close of the business August 31, 1906, the total circulation of national bank notes was \$12,220,287, an increase for the year of \$38,705,594, and an increase for the month of \$1,174,394. The circulation secured by the lawful money aggregated \$12,434,252, a decrease for the year of \$1,070,727, and an increase for the month of \$1,078,573. The amount of bonds on deposit to secure circulation was \$1,078,573, and to secure public deposits \$67,097,200.

Coinage at the Mints.

WASHINGTON, Sept. 1.—The monthly statement issued by the Director of the Mints shows that the coinage executed at the mints for the United States during August was as follows: United States gold, \$9,920,000; United States silver, \$125,000; Philippine pesos, 1,000,000 pieces; Philippine pesos, 402,000 pieces.

South Pasadena Bank.

WASHINGTON, Sept. 1.—(Exclusive Dispatch.) The Comptroller of the Currency has approved the application to organize the First National Bank of South Pasadena, Cal., capital \$25,000. The organizers include H. L. No. 5300 Pasadena avenue, Los Angeles; Solon Briggs, Elmer L. Moody, J. H. Merriam, William Edward Hildner.

HARRIMAN LOOKS UP UNCLE'S END.

MAKES INQUIRIES REGARDING RELATIVE KILLED BY KING.

While in Honolulu, Railway Magnate, Harriman, Made Inquiries Regarding Relative Killed by King. Harriman, who was shot and killed by King Kamehameha Fifth, and was an uncle of Harriman. The railway man expressed himself as anxious to meet someone who had known Nelson and could tell about him, but no such person was in Hawaii. The inquiry was referred to in Hawaiian histories. It took place at Lahaina, in 1891. Nelson was secretary of the King, and the latter, who was a heavy drinker, conceived an idea that the secretary was in too high favor with the Queen. While under the influence of liquor he shot Nelson, inflicting wounds which eventually proved fatal. The tragedy is stated to have been the result of a misunderstanding. Nelson was never the same and offered to abdicate, and died soon after.

COUNCIL CONDEMNS MAYOR.

City Fathers of Atlanta Pass Stringent Resolutions Against Woodard for "Conduct at Toledo."

ATLANTA (Ga.) Sept. 1.—The City Council, in executive session, tonight adopted stinging resolutions condemning Mayor James G. Woodard for his conduct at Toledo. The resolutions were passed by a vote of 12 to 2.

CHICAGO AFTER BIG CONVENTION.

CHICAGO, Sept. 1.—Plans for a gigantic municipal convention and exhibition of artistic accomplishments in Chicago next year are being made by city officials and the Commercial Association. An effort is being made to capture the shorthorns of the different municipal societies in the United States and Canada for a joint congress next year, which will rival the recent municipal congress in Dresden. Hugo Grosser, city statistician, will leave for Montreal tonight to urge the American Society of Municipal Improvements to hold their next annual meeting in Chicago. The Mayor of every city in the United States will be invited to the convention.

SALE OF STEEL RAILS HAS BEEN ENORMOUS.

CHICAGO, Sept. 1.—The Iron and Machinery World tomorrow will say that more than three hundred thousand tons of steel rails for 1906 delivery have been sold by the Illinois Steel Company within the past week. This reports the production of six months and fills up the mills to about July 1 next year. Five Western roads every year have bought in lots ranging from 500 to 7,500 tons each. This haste of western roads to buy is in striking contrast with last year.

Charles Dewey.

BURLINGTON (Vt.) Sept. 1.—Charles Dewey, the only surviving brother of Admiral Dewey, is dead at his home at Montpelier, aged 73 years. He was president of the National Life Insurance Company from 1877 to 1900, retiring from business at that time.

Thomas Fitchie.

NEW YORK, Sept. 1.—Thomas Fitchie, ex-Commissioner of Immigration at this port and the "Original Kinley man" of Kings county, is dead at his home in Brooklyn. He was 73 years old and retired some time ago from active politics, owing to ill health.

COULDN'T SEE ECLIPSE AT ALL.

ST. JOHNS (N. F.) Sept. 1.—The lack astronomical observatory expedition which went to Cartwright, Labrador, to observe the solar eclipse of Wednesday last, met with complete failure. Heavy banks of clouds obscured the heavens during the entire period of eclipse and the result of the attempted observations was so unsatisfactory that the astronomers will not even attempt to develop the photographic plates which were exposed. The report of the failure of the mission was brought here today by Gov. McGreggor, who had accompanied the party to Cartwright. The Governor feared also that the expedition sent out by the German and the Canadian governments, which was located at Hamilton, only fifty miles from Cartwright, was fully as unfortunate as those from St. John.

JEFF WON'T ACCEPT \$500.

SAN FRANCISCO, Sept. 1.—Manager Coffroth of the Colma Club tonight received a telegram from James Jeffries stating that he would not accept the offer of \$500 to referee the Boutwell-Nelson fight. Coffroth thereupon wired back that he was authorized to offer the champion \$1000 for his services. No answer to the second offer has been received.

GAS FOR FUEL.

If you are building houses to rent you cannot afford to build them without piping them to burn gas for heating.

Wale's

LOS ANGELES PEOPLE IN PARIS.

PARIS, Sept. 1.—(Exclusive Dispatch.) Mr. and Mrs. E. H. Clark, Mr. and Mrs. Jeanne and Miss Vera Jeanne of Los Angeles, and Dr. and Mrs. Fred B. Sutherland and Miss Esther E. Sutherland of San Francisco, registered today at the office of the European Edition of the New York Herald.

CHICAGO POLICE SHAKEN UP.

CHICAGO, Sept. 1.—In the most sweeping police order issued from department headquarters in years, Chief Collins last night spread consternation and trembling in the police ranks by a general order that affected fifty commanding and subordinate officials of the department. While no retirements or dismissals marked the edict, the fact that it applied in but a few cases to high officials was taken as indicating that the order was but a precursor of an even greater upheaval. The order creates two new lieutenants, two new sergeants and thirteen patrolmen. The transfers affect almost every precinct where police activity is shown and each district headquarters receives an infusion of new blood.

SEVERE STORM HITS CHICAGO.

CHICAGO, Sept. 1.—The most severe storm of the year raged for two hours this evening. The wind at times blew forty miles an hour and nearly two inches of rain fell. In the business section of the city a number of signs and awnings were torn loose and some windows blown in by the thunder and lightning were terrifying.

COSTA RICA HURRICANE.

SAN JOSE (Costa Rica) Sept. 1.—A hurricane of extraordinary severity has caused considerable damage to the banana plantations. American enterprises suffered a great deal. No details of the losses are yet available.

While Gould is said not to be directly connected with the institution, some of his people are, and Bartlett is represented as putting in the bank's presidency. State Bank Commissioner South S. Eldridge is a figurehead for the people he represents. Eldridge is to resign as a commissioner in a few days in order to enter upon his new duties.

ONE BOY ROASTS ANOTHER ALL

SATURATES HIM WITH GASOLINE THEN APPLIES MATCH.

Disappearance of New York. Has Strange Sequel. What Mrs. Gets Photographed. Her Kidnapper—Collins Still in View. Jail—Deaths of Criminals.

BY THE ASSOCIATED PRESS.—A CHICAGO, Sept. 1.—A dispatch to Tribune from Hannibal, Mo., says Charles Christian, eleven years son of Lee Christian, was roasted in Union street last night by a boy named McLean, who dashed a can of gasoline over the clothes of a Christian and then applied a match.

Christian was playing on the street with several other boys, when McLean walked up, swinging a gas can. After twice threatening to throw it, he dashed it over the boy's head. The boy was called by his word God. He unbuttoned the of the can, rushed upon Christian, drenched him from head to foot, and then ran away. He was followed by a crowd of boys, who succeeded in extinguishing the flames. The boy was taken to the hospital, but his condition is not serious.

KIDNAPING OF ROBBIE COHEN. STRANGE SEQUEL DEVELOPS.

NEW YORK, Sept. 1.—There has been a strange sequel to the kidnapping of nine years ago, of a girl named Cohen, an East Side girl. The mother lives in Orchard street, and surprised yesterday by the police, who had been looking for her. She was taken to the police station, and after a long search, she was found. She was taken to the police station, and after a long search, she was found.

When the man visited Mrs. Cohen yesterday she pleaded with him to let her know the present whereabouts of the daughter, thrust a recent photograph of the girl in her hand, and said: "She has changed names. Now, just forget her and do as I bid her. I won't do you good."

The police were at once notified and were inclined to believe that the mother was telling the truth. The girl was found in a rooming house, and after a long search, she was found. She was taken to the police station, and after a long search, she was found.

CRIME BRIEFS.

Boys Confess to Stealing Bikes.

SAN JOSE, Sept. 1.—John Schmitt and Albert Foyell, two boys, up being arrested today on charges of having stolen several bicycles recently from the city officers have been covered.

Fireman Turned in False Alarms.

SAN JOSE, Sept. 1.—Leo Myers, a local member of the fire department, was arraigned today on a charge of having turned in numerous false alarms of fire during the past few months. He was placed under \$5,000 bond. The crime is a high misdemeanor.

Long-standing Feud Culminates.

SAN JOSE, Sept. 1.—C. E. Pratt, a rancher living near Gilroy, fired a shot at Ferdinand Bryan, a neighbor, today. Several of the bullets took effect in Bryan's body, and he is not expected to live. The tragedy is the culmination of a long-standing feud.

Collins Still in Jail.

VICTORIA (B. C.) Sept. 1.—Fallu has attracted another effort of court for George D. Collins, wanted in San Francisco on a charge of perjury, have him removed from jail. This morning, W. J. Taylor, K. C., on half of Collins, applied to Justice Macdonald for a writ of habeas corpus. The court took exception to the question whether he was pro-

Twelve Miles of Clear Still Water

LOVED DEAD LAID TO REST.

Funeral Rites of the Late
Fred'k H. Rindge.

Great Concourse of People at
the Obsequies.

Eloquent Words Spoken by
Men of the Church.

With the last softened rays of the setting sun shone a golden halo across the embowered bier, and falling like a silent benediction from the deep blue California sky upon the bare head of a bereaved family and sorrowing friends, the mortal clay of Frederick H. Rindge was laid to rest at the close of yesterday, in the family burial place at Rosemead Cemetery, and so the remains of a true Christian gentleman and successful man of affairs were committed to the earth at the end of a busy life filled with the practical precept of doing good.

The funeral services were held at 2 o'clock at the family home at No. 2498 Harvard boulevard, following the arrival of Mrs. Rindge with the remains by special train from Yreka, late Thursday night.

Gathered at the palatial residence, a host of friends sought to attest in some measure by their presence their appreciation of the sterling qualities of a man whose life had been a noble one, and in private life and in business, as well as in his church activities, had been a benefactor to the community.

Among the concourse were numbered some of the most prominent business men and financiers of Southern California, professional men, clergymen of various denominations, the board of directors and secretaries of the Y.M.C.A., attending in a body. Officers of the various companies in which Mr. Rindge was interested, and officers and directors of many other companies gathered with those who knew Mr. Rindge socially, and others whom he had helped and befriended in innumerable ways during his life.

There was also present a committee appointed by the Board of Directors of the Southern California Society of Colonial Wars, of which society Mr. Rindge was a member, consisting of Cameron Erskine, Senator Frank Y. Flint, Spencer R. Thorpe, Dr. John H. Haynes, George J. Davis, Frank Clarke, President and Arthur B. Bentel.

With the home transformed into a center of religious fervor, through the contributions of friends, churches, societies and business enterprises in which he was interested, the bier, of which the state and lived "Happy Days in Southern California" was almost hidden from view.

Rev. W. L. Rider, pastor of the Westlake Methodist Church, of which Mr. Rindge was a member, took charge of the funeral service, and was assisted by a number of other Methodist clergymen, who had enjoyed the pleasure of an intimate acquaintance with Mr. Rindge.

Following a rendition of "Nearer, My God, to Thee" by the choir of Westlake Church, Dr. Robert McIntyre and Rev. A. W. Atkinson read Scriptural chapters.

Rev. E. A. Healy offered a touching and moving prayer to Him who "looks down from the throne of everlasting love," praying for His special blessing upon the souls of the departed, and for the comfort and consolation of the bereaved.

At the close of the service, the remains were committed to the earth, and the burial was completed. The funeral services were held at 2 o'clock at the family home at No. 2498 Harvard boulevard, following the arrival of Mrs. Rindge with the remains by special train from Yreka, late Thursday night.

THE LATE FREDERICK H. RINDGE.

bridge and Boston, receiving his final preparation for college from Dr. James Lawrence Laughlin. During his vacations, and while a young lad, his mind was broadened by extensive travels under the wise direction of his father. In 1870, he came to California, and during the years 1871 and 1872 he visited most of the places of interest in Europe. Entering Harvard College in 1873, he received the degree of bachelor of arts in 1876. During his college career, he was called upon to assume the grave responsibilities of his father's large estate. That those responsibilities were borne in a manner surpassing the expectations of his most ardent friends is told in the many official and private resolutions and testimonials from his native city, and in his many connections, public improvements and religious endowments, in this land of his chosen home on the Pacific Coast.

In the last year of his college course he was prostrated by an illness from which he suffered during the remainder of his life. The impressions of California received by him upon his early visit had never been effaced from his recollection, and in 1887, after a short trip to the Hawaiian Islands, he came to Southern California in search of health, and, in his own words, "he was greatly blessed in that regard."

On May 27, 1889, he married Miss Rhoda May Knight of Trenton, Mich., daughter of James and Rhoda Kathrop Knight, and from this marriage have been born two sons and a daughter: Samuel Knight, Frederick Hastings, Rhoda Agatha.

Early in his California life, Mr. Rindge purchased the historic Rancho Topanga Malibu, extending along the Pacific from Point Dume, a tract of many thousands of acres of most picturesque mountain, valley and canyon. Here he erected a commodious residence, which was his home for many years. In his charming book, "Happy Days in Southern California," he has given a most graphic account of his mountain home and his happy life with the dear ones of his family.

He seemed during these years to secure a new lease of life, and true to his instinct to be active, he began to take part in the enterprises of this southern country.

In a few years he had his hand upon many, if not most, of the great undertakings that have tended so rapidly to upbuild this city and surrounding country. A peculiarity—and an intentional one—of his investments was not only to aim at making money for himself, but to handle such business investments as would be profitable to the investor, helpful to others, and aid in the development of this new country.

In short, his desire was not only to benefit himself, but to benefit others at the same time. Accordingly, we find him largely interested in the great lighting and power companies of Los Angeles and Southern California, in almost countless other enterprises, and also in the semi-benevolent business of life insurance.

So this delicate man became in the few years of his activity one of the greatest factors in the material development of Southern California.

From his youth the evils of intemperance had been impressed upon his heart, and to the sale of intoxicating spirits he gave neither countenance nor aid. His earnest fight for a clean town in Santa Monica and his pronounced attitude more recently in the "saloon" contest in this city, evidenced the depth of his convictions.

formia, which has no equal among private collections. He was greatly impressed with the lives and characters of his Puritan ancestors, and his pride of descent from those who sacrificed their homes and the friendships of their early environment that they might enjoy liberty of conscience was a marked feature of his character. Soon after the organization of the Society of Colonial Wars, which is composed only of those descendants from men distinguished in the colonial history of this country, Mr. Rindge was elected to membership, and he was ever an enthusiastic supporter of that order, and a fearless advocate of the principles upon which it is founded. His Chair, as a Gentleman of the Council, is today draped in mourning, and his associates assemble in this presence to pay their mournful tribute to an associate who will not be forgotten.

In placing his name upon the membership "graveyard" of the Society of Colonial Wars, he was a fitting representative of the principles upon which it is founded. His Chair, as a Gentleman of the Council, is today draped in mourning, and his associates assemble in this presence to pay their mournful tribute to an associate who will not be forgotten.

From the sacred portals of his private life, who will not be forgotten. But on this day of sorrow, we may extend to her, the companion of his happy years, and to the bereaved of a father's loving watchfulness, an expression of our most profound sympathy. The lessons imparted by those whose hearts will guide them in the road to peace, virtue and honor.

A gentleman has gone from us, but we believe that in the economy of the great hereafter, we shall understand the mystery of this affliction, and the troubles of our hearts, and the necessity which, in the midst of his usefulness, when his presence seemed most needed by those whom he cherished, he has taken away this loved companion, gentleman, Christian and patriot in all things conducting to the welfare of his country.

OTHER SPEAKERS.
Dr. John L. Pinner, presiding elder of the San Diego district, recalled many incidents of his long and intimate acquaintance with Mr. Rindge, picturing the dominant qualities of modesty, magnanimity, and broad scope of intellect which characterized the man and endeared him to all who knew him.

Dr. J. C. Healy, pastor of the Santa Monica Methodist Church, of which Mr. Rindge was also a member, from the close association of a coworker, gave a most graphic and stirring character sketch of the man as he appeared in everyday life.

The active path bearers, Dr. John R. Letts and A. J. Wallace, conveyed the casket to the hearse, followed by the honorary path bearers, H. E. Huntington, W. C. Patterson, Joseph H. Clark, Charles R. Drake, Gen. M. H. Sherman, O. T. Johnson, Gen. Harrison Gray Otis, J. Ross Clark, Warren Gilead, E. P. Clark, Col. D. Freeman and W. Beckwith.

In the procession of carriages those bearing the casket led the way, being followed by coaches loaded with those carrying the active path bearers, and the cortege proceeded to the residence of the family and friends immediately following.

At the close of the burial rites, the presence of the different denominations present, some fifteen in number, united in repeating the Lord's Prayer. During the day of the funeral, as a mark of respect, the offices of the Consolidated Life, the Edison Electric Company, the Union Oil Company and other local companies of which Mr. Rindge was an officer, closed their doors.

Great Shoe Sale. Talk of the Town!

People, all over the city, are talking about the great Shoe Sale. They come and buy, and then tell their neighbors of the unparalleled bargains that are here for everybody.

I am selling out this large stock of high grade shoes at such little prices that any one needing footwear cannot afford to let the opportunity pass without buying. Cost is not taken into account. I am going out of business, and every pair of shoes in the house must be sold by the 23d of this month, regardless of value or any other consideration. The prices here quoted are only such as prevail all over the store. If you want the best and most for your money, you will certainly attend this sale.

\$5, \$6, \$7 Shoes At \$2.95
These are the Waterman Un-X-L-D shoes for men; a new lot just arrived; snappy styles for men who are looking for the very "latest." The "going out of business price," \$2.95, is certainly an added inducement to buy these shoes.

\$3.50, \$4, \$5, \$6 Shoes At \$2.45
This item is for both men and women. For women are included "Wicket & Gardner" and "Ultra" brands, and for men the Geo. E. Keith and "Edwin Clapp" brands. Newest and most popular shapes are represented in all desirable leathers.

\$3, \$3.50 to \$5 Shoes At \$1.95
These are shoes and oxfords for both men and women. All the popular lasts and leathers are represented, and there are many excellent bargains in the lot. All sizes among them.

\$1.25, \$1.50, \$2 Values At 65c
No need for the youngsters to wear heavy shoes these hot days. Bring them in and fit them with a pair of these oxfords or sandals, or both. They are in tan and patent leathers for children and misses. There will be lots of comfort at little cost.

\$2.50, \$3, \$3.50 Shoes At 95c
Short lines of shoes and oxfords for men and women, in which there are only two or three pairs left; have been bunched together at above price. All styles, sizes and leathers in the lot and you may be sure of some big bargains.

\$2.50, \$3, \$3.50 Shoes At \$1.45
Boys accustomed to wearing the very best shoes are buying them now at the small price of \$1.45, about half what they are accustomed to pay. These shoes are in patent leather, vici kid and box calf. Hurry up, boys!

HORSE BITES PATROLMAN.

Puzzling Question Raised by Injury to Matuskiw, and Owner May Be Called to Account.

In a vicious horse a menace to the public? Is he as dangerous as a vicious dog when he bites?

These questions are puzzling the police. Yesterday Patrolman Matuskiw was bitten by a handsome bay animal attached to a light road wagon.

Matuskiw was passing along North Spring street opposite the Bullard block when the horse, which was tied to a post, suddenly reached out on the front porch of the building and snapped at him on the right arm. The member was severely bruised and lacerated by the horse's teeth, and Matuskiw thought at first that his arm had been fractured. His injuries were attended at the Receiving Hospital.

Matuskiw took the horse to the police station, and the owner, W. A. Saunders of No. 445 Aliso street, was located. The police say the horse has bitten several persons, and a charge of harboring a vicious animal may be preferred against Saunders.

VICTIM OF TEMPER.

Aged Man Who Prided Himself on Composure Creates Reign of Terror With a Gun.

St. Pierre Higuier, 75 years old, descendant of one of the proudest families of La Belle France, veteran of the Franco-Prussian War, and who nearly knew Napoleon, lived the life of a peaceful citizen and never allowed his temper to get the better of him until yesterday.

M. Higuier had always prided himself on the control he continually exercised over his temper, but yesterday afternoon, during a heated discussion with his daughter-in-law on the front porch of his residence, No. 759 Gibbons street, he lost himself completely and whipped out a revolver. Then he tried to shoot out a revolver. Then he tried to shoot out a revolver. Then he tried to shoot out a revolver.

The old Frenchman was the central figure in a veritable reign of terror. Kincaid entered through a window and finally subdued the irate Higuier. The aged man was locked up on a charge of suspicion.

The final meeting of the Congress of Reformed Religions, Geneva, Switzerland, had accepted the invitation of Prof. Doane of Boston to hold the next congress in the United States.

NEWS AND BUSINESS.

Children Cause Fire.

Children playing with matches started a fire in a shed in the rear of Mrs. A. H. Howard's residence, No. 1012 South Olive street, yesterday afternoon. The shed was practically destroyed. The loss amounted to about \$50.

Will Entertain Editors.

Members of the Los Angeles County Weekly Press Association will be the guests of Venice of America all day and evening of September 24. They will be taken down from Los Angeles in special cars provided through the courtesy of the Los Angeles-Pacific Railway.

Bakersfield Fireman Bankrupt.

Matt F. Smith, a fireman of Bakersfield, yesterday filed a petition with the Commissioner in Bankruptcy, asking to be declared bankrupt. His liabilities are \$532.00, and there are no assets except personal property to the value of \$150, on which petitioner asks exemption.

Not an Infernal Machine.

George K. Palmer, a real estate dealer with office in the Bryson building, "yelled" loudly for the police yesterday when he picked up in his mail what he thought was an infernal machine. Detectives took the thing to the Police Station where an investigation showed that some joker had sent a harmless package to Palmer.

Alleged Counterfeiter Committed.

Herman J. Wood and H. J. Banks, both residents of Upland, who were arrested by United States Officer Cronin, on the charge of having in their possession money for making \$10 gold pieces, had a hearing before Commissioner Van Dyke, yesterday, and were held to the county jail for \$2500 cash bail, they were committed to the County Jail.

Took Bad Check.

N. Smoother, a friend who conducts a small grocery at No. 909 Sunset boulevard, thinks he was lured by a stranger who presented a check for \$2.00 and which Smoother cashed. The check was drawn by Thomas Callahan on the First National Bank and was made payable to and indorsed by W. Darnall. The bank refused payment and now Smoother wants the police to catch the man that passed it.

BREVITIES.

Times "Liner" Advertisers—Important change in rates for Sunday classified advertisements. Commencing Sunday, October 1, 1934, and thereafter, the rate for Sunday "Liners" will be 14 cents per line for each insertion; minimum charge, 25 cents, as at present. This slight advance is amply justified by the present high cost of circulation of the Times, which averages over 60,000 copies. (When the 1-cent per-word rate was established in 1933, the Times Sunday circulation was only 14,000 copies.) The "Liner" rate for the daily—1 cent per word—will stand as at present.

Two suites of fine, light-front offices to let; second floor, Times Bldg. Floors carpeted and arranged of rooms splendidly adapted for convenient use. Rent low in permanent tenants. Apply J. Baum, Times Office.

MORE WATER, MORE WAGES.

Five Thousand Men Needed on 'Great Enterprise.'

Where the Money Spent for Owens River Will Go.

Seventeen Millions to be Paid for Labor Alone.

If the city of Los Angeles adopts the Owens River project and undertakes the construction of a conduit to bring the water into San Fernando basin at a cost, estimated liberally, of \$21,000,000, the greater part of the money expended will be paid in wages to skilled labor. In order to complete the work in four years, a large force of men must be employed all along the line.

Carpenters will find employment in making and setting forms for the concrete conduit, in putting up temporary buildings and quarters for the men. Steel workers and boiler makers will be needed to construct inverted siphons where the line crosses gullies. Drillers and rock men will find work in the tunnels. Drivers will be employed to haul the material to the construction camps, and less skilled labor will be needed to cut a way for the conduit along the mountain sides. It is roughly estimated that about five thousand men can be employed to advantage on the line.

The quantity of cement required for the conduit is estimated at 1,400,000 barrels, costing \$2,800,000. It may be found feasible to manufacture the cement in Southern California, and in that case practically all of the \$2,800,000 will be expended for skilled labor here. A cement mill of 300 barrels daily capacity can be set up for \$100,000, and if the raw material is accessible it will pay to produce the cement material near the line rather than to purchase it elsewhere.

Probably there will be about seven million of steel siphons, requiring 3000 tons of steel plates at \$40 a ton. The plates will be cut, shaped and punched for rivets by skilled workmen in Los Angeles, and boiler makers will put them together and set them in place on the ground. It is the engineers' estimate that the labor cost of constructing the plates will average \$50 a ton. Electric equipment for developing and transmitting power will cost about \$135,000. Excavating machinery, power drills, tunnel cars, etc., are figured at \$75,000, and explosives used in rock work at \$50,000.

The expenditures for other accounts than labor are calculated approximately as follows:

Cement (if not made here).....\$2,800,000
Steel siphons.....3,000,000
Electric equipment.....135,000
Machinery.....75,000
Explosives.....50,000

Total.....\$13,000,000
That leaves more than \$8,000,000 to be expended for labor employed directly on the line. For freight, an allowance of \$3,000,000 is made, and deducting that from the \$8,000,000, we still have \$5,000,000 to be distributed to the workers of Los Angeles in four years. During the four years, the men would earn \$3,750,000 a year, or \$14,000,000 in four years.

The cost of the steel siphons, which may be increased to avoid cutting in unfavorable rock, will give to the boiler makers of Los Angeles \$2,800,000 in wages, and a part of the \$75,000 to be expended for machinery will go to machinists in this city.

The ranchers of Owens Valley will be benefited directly by the construction work. There will be employment for all their teams in freighting, besides a market for all the hay and other farm products they can raise. During the four years, not a drop of water can be taken out of the valley; it can all be used for irrigation. Hay land in Owens Valley will double in value when the work begins, and the value of farm products and stock will be increased greatly because of the nearer market.

CASE DISMISSED.
Former Policeman and Woman Freed of Indictment Because of Court's Lack of Jurisdiction.

On motion of Deputy District Attorney Donnell yesterday, Judge Bordwell dismissed the grand jury indictment charging J. D. Helman, a former police officer, and Mrs. Clara Mersch with a high class misdemeanor. The couple had passed several days in the County Jail since their arrest a week ago and up to the time of their release.

The grounds upon which Maj. Donnell made his motion was that jurisdiction in the case rested entirely with the Police Court and that any prosecution of the pair should arise through that court. Under the present charter of the city of Los Angeles, the relations existing between Helman and the woman, declined to make a complaint against her mother in the Police Court or anywhere else and it is considered likely that no further action will be taken in the case.

"Whatever my mother may have said about me," said Mrs. Mersch yesterday, "I would not take any action against her. I and my sister have had the home in which we were raised, but I do not care to cause my mother any suffering."

PERSONAL.
H. Grafton Vercoe, a well-known mining man with headquarters at Fresno, is registered at the Angelus.

William Z. Mead, associate editor of National Finance of Chicago and New York, is visiting Los Angeles for several weeks.

Rev. and Mrs. Robert J. Burdette are expected to arrive home from their foreign trip on Sunday. Mr. Burdette is in the best of health.

Fred and Otto Hess, proprietors of the San Francisco German Democrat, are at the Hollenbeck, on their return from a summer trip through Southern California.

E. W. James of Buffalo, a heavy owner of real estate and rental property in that city, is at the Angelus, and is making an extended pleasure trip through California.

George Morton, general agent of the "Katy" at St. Louis, and Joseph McHenry, Pacific agent of the same system at San Francisco, were the guests yesterday of General Manager Schindler and Traffic Manager McMillan in a private trip over the southern divisions of the Huntington electric system.

Copper Company, a syndicate operating a number of valuable copper properties in the Mormon State, left last night for home, after several days spent at Los Angeles. Mr. Wall is just returning from a trip through Mexico, where he is likewise interested in copper properties.

CATALINA ISLAND.
TAKE BARNARD IN BAY.

AVAILON, Sept. 1.—The sardine boat Alpha has been hovering about the island for several days, dropping in and out of the bay. This morning, a haul was made with a big purse net at the end of the steamer wharf. A considerable lot of sardines was taken and the haul was estimated at 100,000.

While the courts have decided that the county ordinance which formerly gave the island protection is inoperative, still it has been hoped that the county fishers would have sufficient consideration to keep out of this bay.

Mrs. R. C. Murray and Mrs. Leo Howard of Los Angeles are guests at the Metropole.

Clarence F. Mead of Kansas City, who, with his daughter, is here, is spending the summer here, left today. Mrs. Mead accompanied him as far as Palo Alto, where Miss Mead is a student at Stanford.

A Redland man yesterday counted seventy-five people from his town who have been here within the past two weeks. More than half that number are now here.

Judge D. T. Trask and family are domiciled in the Canby City.

L. G. Mullen, City Assessor of Pomona, with his daughter and Miss Elizabeth Burgess are at the Canby City.

Capt. and Mrs. J. J. Boniface, who have been at the island for more than a month, left today.

Mrs. J. C. Hartwell, wife of Bishop Hartwell of Rhodesia, Africa, who has been at the Glenmore for three months, left today.

Mrs. H. A. Stearns and two children are here for the summer. Mrs. Stearns is a daughter of the late William J. Blattner and wife of San Francisco are at the island.

UP-POLE SHIN, TOWN THRILL.

Pomona City Attorney Climbs

After the 'Phone.

Spectacular Mid-Air Attack

on Sunset Wires.

Lack of Franchise Causes a

Unique Fight.

(SPECIAL CORRESPONDENCE OF THE TIMES)

POMONA, Sept. 1.—The thrilling

spectacle of a dignified city official

climbing a greased pole for a telephone

pole was afforded here this afternoon

at the actual opening of the most

unique "hobby" fight ever developed in

Southern California.

City Attorney Robert G. Loucks is

the man who did the mid-air act under

a sweltering sun, and he "got there"

eventually—though not to the top of the

pole. He furnished splendid and amus-

ing entertainment for the few who

knew what was going to happen.

Climbing a greased pole for a diver

at a Fourth of July picnic would be

tame sport compared with the exhibi-

tion given by the intrepid lawyer at-

tempting to shin up a Sunset company

support in order to be the first to cut

wires doing business without a fran-

chise.

For some time the City Trustees have

had under consideration the Sunset

people's operation here without, so the

claims, a legal right. About a month

ago they passed a resolution instruct-

ing the Street Superintendent to remove

from the streets the poles and wires of

the company, if the latter did not

within thirty days procure a franchise

under the Brownston Act, show

cause why it should not secure one. The

thirty days having expired, the

Superintendent Blunker was given legal

notice to begin taking down the poles,

which are declared a nuisance on the

streets controlled by the city.

Blunker constituted as his deputy the

City Attorney, who has been active in

the campaign against the company, and

under whose advice the Trustees are

acting, and the latter began his attack

upon the enemy's lines away down at

Ellen street, opposite S. F. Ford's

house.

LOUCKS TACKLES.

With wire cutters firmly grasped in

hand, his manly nether limbs graced

with straps and real spiked pole climb-

ers, Loucks began a perilous ascent

of a pole 200 inches long. Now, how

many have been able to shin bare-legged

for birds' nests and green apples in his

long hair suit now.

It looks easy to climb a soft-wood

stick with those prize cock-hatting

spurs on your interferences, but you

who have never had them on, just

try it.

After several ineffectual jobs at the

redwood with the foot javelin, Loucks

managed to get four feet on the way

to fame, then slid gracefully down to

ground. First one spike would stick

and the other wouldn't, but he kept

persisting till he finally attained to

within six feet of the wires. Happy

day!

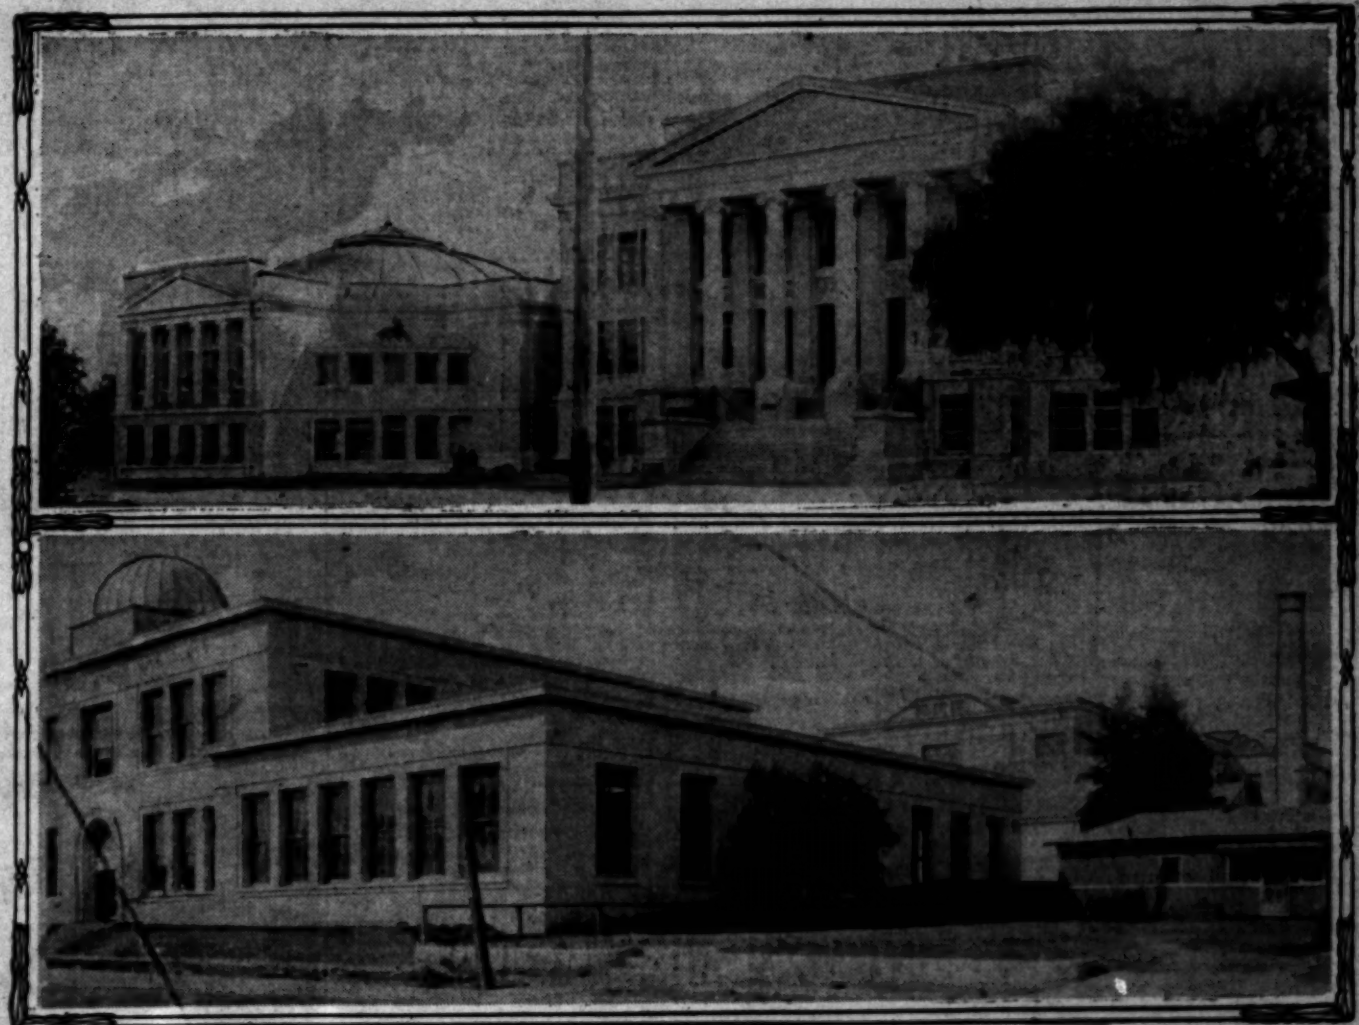

PSYCHOLOGICAL MOMENT.

In the language of the diplomat,

Witte a psychological instant was nigh

—when plunk! the iron sticks slipped,

losing Loucks his foothold, and he dan-

The new Polytechnic High School. Above—main building and assembly hall from Washington street; below—science hall and machine shops from Twentieth street.

POLYTECHNIC IS ALL READY.

Rushing the Furniture Into

the New Buildings.

Finest Manual Training of

All the Country.

First View of the Complete

Structure Presented.

The most complete Polytechnic High

School in America now stands to the

credit of Los Angeles.

The school consists of a handsome

group of buildings, covering a ground

space 220x400 feet, between Grand

avenue and Flower street, running

through from Washington street to Twen-

tieth. The main building is four stor-

ies high, Assembly Hall two stories,

Science Hall two stories, and the

every pupil had to be induced to carry

a chair to sit on.

At that time people were talking

about the impossibility of having it

complete in time for the opening on

September 25, but now its completion

is a fact, and it will not be necessary

to carry chairs.

Yesterday the painters finished the

last of the interior decoration; the

plumbers were winding up their end

of the work; a big force of men was

engaged in clearing away the rubbish

from the outside and tearing away the

temporary buildings used by con-

tractor, engine room and another crew

was rushing wagon loads of furniture

into the building. There was a general

air of completeness about the premises

and every workman was picking up

the loose ends of his own particular

job.

The equipment for the Wood Shop

and the Domestic Science Department,

has been ordered and will be on hand

in a few days and everything is be-

ing rushed to be ready when they

arrive.

Everything about the construction of

this modern educational institution

suggests perfection of detail, and there

are some unique features.

Perhaps the most important of these

is a tunnel, through which a man can

walk and have plenty of head-room,

running the entire length of the school

from Washington street to Twen-

ALL TO HIS FAMILY.

Mr. Rindge Leaves Twenty-two

Millions to Wife and Children—One

of His Active Associates Explains

Why He Made No Public Bequests.

FREDERICK H. RINDGE, who was

buried yesterday, and whose estate

is valued at more than \$22,000,000,

made no public bequests in his will.

This statement was positively made

yesterday by a gentleman who has been

in close touch with Mr. Rindge and

whose advice had been sought by him

regarding his affairs.

Like many another wealthy man, Mr.

Rindge put off too long the construc-

tion of such a final testament as he de-

sired, and death came upon him with

many lines of commercial and public

and philanthropic interests in which

he had deep concern. Not one of them

appears as an actual beneficiary in the

will which will be presented for prob-

ate next Monday. It is stated by one of

his lieutenants.

For several years past Mr. Rindge

had felt that his uncertain condition of

health might result in a serious break-

down at any time, and he had desired

to prepare a will which would adjust

his vast property interests exactly to

his satisfaction.

With an estate which involves such

intricate ramifications as does that of

Mr. Rindge, and which is located in

the Atlantic, Middle Western and Pa-

cific Coast States, ranging through

business, both in the East and in the

West, it will also be seen that the task

Although, had the match
